first published in 2012 this work of introduction is designed to escort the reader through some six centuries of english literature it begins in the fourteenth century at the point at which the language written in our country is recognizably our own and ends in the 1950s it is a compact survey summing up the substance and quality of the individual achievements that make up our literature the aim is to leave the reader informed about each writer s main output sensitive to the special character of his gifts and aware of his place in the story of our literature as a whole

we are often told that the women s movement of the 1960s and 1970s led to the rediscovery of forgotten women writers without feminist presses such as virago these women would have sunk into obscurity thanks to carmen callil and other trailblazing feminist publishers a canon of women s literature emerged and living writers managed to survive and sometimes thrive in a literary marketplace that had so far been dominated by men although obstacles remained the story is one of the triumphs over a misogynistic publishing industry a sector that had once sought to erase women writers of the past marginalise living authors and close the doors to any future legacy there are two problems with this oft repeated story first it focuses mainly on fiction rather than poetry founded in 1973 virago did not start publishing poetry until the early 1980s second it neglects the major role that conservative male publishers played in re discovering women poets in post 1960s britain with the growing influence of the women s liberation movement these publishers realised that there was a growing market for poetry by women at the same time the arts council of great britain started pushing for more diversity nudging its clients to make more room for women and ethnic minorities drawing on extensive archival work and oral history interviews this open access book pushes the boundaries of a scholarship that has focused mainly on women s poetry in relation to women s presses archival documents show the influence of the arts council and the market in pushing conservative publishers towards more diversity this evolution has had long term consequences on the canon of women s poetry a canon that was largely shaped by conservative publishing houses rather than radical feminist presses
